DETAILED ACTION

Allowable Subject Matter

1. Claims 1-39 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a method for controlling an electric motor comprising generating a position signal using a sensor magnet having a plurality of sensor poles and converting the position signal into a digital signal, wherein the position signal can be converted into different digital values even at rotational positions within the angle range of one sensor pole. The prior art also does not specifically describe an apparatus for controlling an electric motor comprising a rotor position evaluation means for generating absolute value for a rotor position including an A/D converter having a resolution of at least two bits

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rina I. Duda whose telephone number is 571-272-2062.
